

Fachschaft MSc Neurosciences meeting 14.02.24

Topics discussed:

- 1) Current state of our new Fachschaft-Study regulation which had to be uploaded:

Everyone is preparing for the exams from other courses and programs, so no one is responding. Amael will write an email and ask the conglomeration of Fachschaften again to attach our regulation, or receive an instruction on how and where to upload it.

We need to find the protocol of elections with our signatures for selected roles from Johanna from last year. We need to attach it to our regulations.

Next week Uran will fill in the template for the page and I will send the library inventory to add on the page.
